MAY WE SUGGEST

Cold River Vodka from Maine potatoes

Illuminated Rain Gauge world's first

Sports three LED bulbs positioned to light up the inside and outside of the water column making it easy to read in dark conditions. The Illuminated EZRead™ Rain Gauge is powered by two AAA batteries and works with any infrared remote control in the house. Simply point the remote at the gauge and hold down the power button. The Illuminated Rain Gauge will light up and automatically shut off after 5 seconds. For more information call 1-800-228-0275. www.LEDrainauge.com

Casio Super Slim world's thinnest projector

The new Casio Super Slim projector is the world's thinnest projector in its class. The low profile unit provides business professionals, presenters, and sales professionals with a projector thin enough to fit in an attaché case for the ultimate in mobility.

Sleeptracker Pro recording your nightly sleep patterns

Worn like an everyday watch, SLEEPTRACKER PRO uses an internal accelerometer to detect the movements associated with periods of restlessness that indicate we are in a light sleep stage. The device gives you the ability to upload your sleep data via USB to your computer and review it by week or month. Once the included software is downloaded, simply connect the watch to your PC and your sleep data is transferred to your desktop. Input daily factors like a late dinner, strenuous workout, alcohol intake, etc. to help you determine what lifestyle choices negatively affect your sleep patterns. www.sleeptracker.com
